

Portfolio Sites

6 Steps!

1. Set up your repo for github pages:
<https://pages.github.com/>
2. Pick a Template:
<https://html5up.net/>
3. Edit your template
4. Pick your domain:
<https://domains.google/> (.com, .dev, .io)
<https://www.namecheap.com/>
5. Follow github's instructions for domain mapping
6. Push and deploy!
